

Woodpeckers Homework

Reading - daily reading has a huge impact in all areas of learning.

We set very little other homework in key stage one as we believe daily reading is the most beneficial.

Tricky words are sent home to practise - these cannot be decoded and need to be sight read. This really improves reading fluency and therefore comprehension.

Maths - Children in year 1 will be learning 2, 5 and 10 times tables.

Children in year 2 will be practising and applying their knowledge of 2, 5 and 10 times tables. They will be learning the 3 times table.

Children can play games on Times Table Rock Stars - passwords attached.

Any practice of times tables helps!

Spelling homework for year 1 and year 2 children is given once a week. This supports children to know which sounds to use when writing.

Thank you for support with homework, it really helps with learning in school, and we can assure you that it makes a big difference.
