

Year 3 and 4 Swallows Class Homework: Term 4 - 'Once Upon a Story'

Below are your homework activities for this term. Homework books should be returned on a **Monday** morning with spellings and times tables completed. Homework books will come back home by Wednesday. Please choose at least one topic homework to complete this term. Please choose from the options below or complete a project of your own linked to any of our areas of learning this term. Be creative! This will be due on **Monday 23rd March 2026**

English	Maths	Topic Homework
Read or share a book at home daily. Please record your reading in your reading diary. Your grown up should write in your diary at least three times a week. All children should have a banded book as well as their own home/library books to read. <i>Discuss what you have read with another person. What did you like? What didn't you like? Was there anything that puzzled you?</i>	Multiplication Tables Year 3 - Children should know and recall their 2, 5, 10, 3, 4, 8 times tables and related division facts by the end of year. Year 4 - Children should know and recall all tables up to 12x12 and related division facts by the end of the year. We have a weekly tables quiz in different formats to check progress. Please use Times Tables Rockstars to practise. Your user name and password is in the back of your book. You may also use flashcards, sheets, board games to practise as well!	We are Scientists! In celebration of Science week, work with your grown ups to choose one (or more!) or the challenges from the Primary Science Teaching Trust to complete at home. Science Fun at Home - Primary Science Teaching Trust or Science for One - Primary Science Teaching Trust All activities are easy to resource and set up and are designed to encourage questioning, curiosity and Scientific thinking. Please do share photos, a video or your investigation with us. If you are sharing a digital file please share with your teachers using your Google Account, rather than sending to the office. Alternatively, printed photos are very welcome too! 
Spellings are linked to the patterns we are revising/learning in class. Please see the list in your book for the week. There will be a weekly spelling check on a Monday.		Settlements Design your own settlement. You could present your idea as a map or diagram, a 3D model or any other way you choose. You must be able to describe the human and physical features of your settlement and why you think people chose to live there. Please bring it in to show and share.
