

Year 3 and 4 Swallows Class Homework: Term 3 - 'Journeys'

Below are your homework activities for this term. Homework books should be returned on a **Monday** morning with spellings and times tables completed. Homework books will come back home by Wednesday. Please choose at least one topic homework to complete this term. You may choose from the options below or complete a project of your own linked to any of our areas of learning this term. Be creative! This will be due on **Wednesday 11th February 2026**

English	Maths	Topic Homework
Read or share a book at home daily. Please record your reading in your reading diary. Your grown up should write in your diary at least three times a week. All children should have a banded book as well as their own home/library books to read. <i>Discuss what you have read with another person. What did you like? What didn't you like? Was there anything that puzzled you?</i>	Multiplication Tables Year 3 - Children should know and recall their 2, 5, 10, 3, 4, 8 times tables and related division facts by the end of year. Year 4 - Children should know and recall all tables up to 12x12 and related division facts by the end of the year. We have a weekly tables quiz in different formats to check progress. Please use Times Tables Rockstars to practise. Your user name and password is in the back of your book. You may also use flashcards, sheets, board games to practise as well!	DT Have a go at designing and making something of your choice using your cross stitch and applique skills. Can you find materials to upcycle at home? 
Write at least 5 sentences <u>each week</u> using some of your weekly spellings. Please focus on correct sentence punctuation and letter formation. Your spelling words and all Year 1 and 2 words should be spelt correctly. Please use your word bank to help you.	We have a weekly tables quiz in different formats to check progress. Please use Times Tables Rockstars to practise. Your user name and password is in the back of your book. You may also use flashcards, sheets, board games to practise as well!	Science Think of a way to teach younger children how to take care of their teeth. This could be a poster, song, game, tv show, comic strip. Make each step really clear and try to make it fun and engaging! 
Spellings are linked to the patterns we are revising/learning in class. Please see the list in your book for the week. There will be a weekly spelling check on a Monday.		Safer Internet Think about internet use in your home. Which activities does each person in your home mainly use the internet for? Is there anything you can do as a family to make sure that everyone is using the internet safely?
